PostBase Vision M2

PostBase Vision M2
Compact Design, Powerful Performance

Give your small business a boost with FP's PostBase Vision M2, the must-have for start-ups, freelancers and all offices who value a professional business image. The PostBase Vision M2 offers an efficient mailing process, along with both franked mail discounts and online account management. Our compact postage meter is easy for anyone in the office to use. Featuring an icon-driven menu and Rate Wizard for selecting postal products, enabling you to navigate your mailroom like a smartphone. With a sleek and modern design, the PostBase Vision M2 is both economical and efficient.

Full selection of Royal Mail postal rates and extra services, and automatic downloads to ensure you always have accurate postal rates without any hassle.
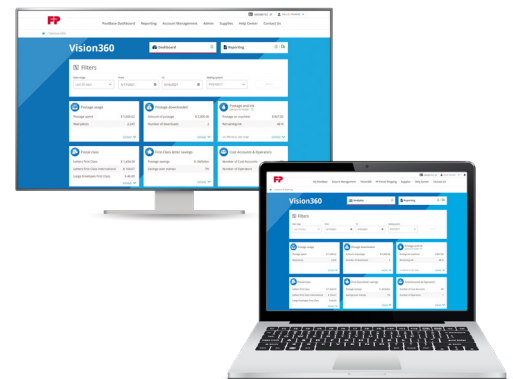

Convenient & Professional

- Postage available 24/7
- Franked mail discounts
- Full set of Royal Mail postal rates
- Intuitive touchscreen operation
- Long lasting, high capacity ink cartridges
- Professional business mail image

Vision360
Postal Analytics and Reporting

Vision360 is accessed conveniently online, through the FP customer portal. Vision360 provides companies a 360 degree view of postal usage to better monitor, manage and control postal expenditures. Users can log-in and view important information about their franking machine including available postage and ink, gain insight to postal expenditures and generate chargeback and management reports with ease. The simple, yet powerful web based interface displays information in two parts, a graphical analytics dashboard and robust report generator with a full suite of reports with filters.

With Vision360, getting the right report you need in the format required is easy. Report types are displayed on-screen as tiles or in a list view that can be sorted by favourites, alphabetical, report type or subscription level. Once a report is selected, a set of filters allows report customisation. The report is previewed and can be printed or exported directly.

Reporting Metrics Available:
- Postage Download
- Postal Class Summary
- Postal Usage Summary
- Postage Usage Detail
