Quadrent iX6 Series Franking System

Transform mail centre operations

The future of franking right at your fingertips. The most intuitive, user-friendly franking machine ever made for medium-sized businesses, combining professional performance with effortless usability.

EXPERIENCE

A rich history of world-class leadership

PROVEN RESULTS

97% customer satisfaction rate

EXPERTISE

7 trillion personalised experiences annually

BACKED BY THE EXPERTS

Gartner, IDC, Forrester, and Aspire

Meet the Quadient iX6

The only franking machine designed with a smartphone-inspired interface and intuitive navigation. It transforms franking into a simpler, faster, and smarter process that anyone can master quickly and easily.

Built for everyday business

The iX6 enables you and your team to save time, prevent costly errors, and deliver a polished image with every envelope and parcel. The iX6 is available in two models: a space-saving semi-automatic hand feed (iX6 HF) or auto-feed technology (iX6 AF).

Easy to navigate and operate

The iX6 requires no more than THREE steps to perform any task. A colour smartphone-inspired interface and intuitive navigation make sending mail as simple as sending a text. Its 7.5" vertical touchscreen provides more space for less scrolling and faster processing.

Efficient, secure, and compliant

The iX6 meets the latest Royal Mail data and security management requirements. Print the latest barcodes using Royal Mail's latest Mailmark® mailing technology, including Royal Mail Special Delivery Guaranteed® and Signed For® services, directly on the envelope. No need for add-on software or external apps.

The iX6 at a Glance

- Ideal for mid-volume mailers
- Smartphone-inspired operation
- Mailmark® Franking Technology
- Processing speeds up to 110 letters per minute*
- Differential weighing platform designed for real-world mixed mail processing
- Powered by S.M.A.R.T Online Shipping and Mailing Software

Revolutionise mail centre management

The iX6 combines innovative design with practical features and benefits that make preparing and managing your mailing process effortless.

POWERFUL

Large weighing platform

Process large post and parcels of mixed weights on the scale without blocking the display. Stack weighing capabilities prevent overpaying for postage and eliminate post-delivery charges.

CONTEMPORARY DESIGN

Intuitive 7.5" vertical touchscreen

Drop-down menus, pop-ups, and sliding keys make navigation and operation easy even for new users.

EFFICIENT

Hands-free automatic feeder

with sealer adjusts to sort mail by size and thickness. Self-aligning rollers prevent jams or misprints.

TIME AND COST-SAVING

Royal Mail Mailmark® Technology

Get postage savings for 1st and 2nd class services. The unique Quadiant OLS system keeps tariffs, firmware, and slogans always up to date.

INTELLIGENT

Centralised post management

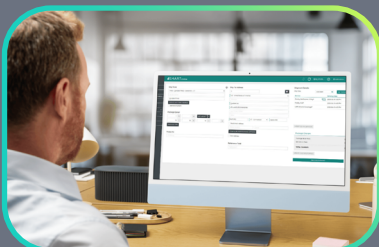

Integrated **S.M.A.R.T. Online** software enables you to compare services, manage budgets, and generate reports, all from a single application and dashboard.

CONNECTED

High-speed LAN connection

Receive automatic updates for software, low ink, and system alerts.

S.M.A.R.T. Online combines convenience, cost savings, and control into one intuitive platform. Send your parcels and letters from one easy-to-use online mailing and shipping solution. Save time, money, and significantly reduce trips to the post office.

- Print postage and Royal Mail shipping labels directly from your desktop
- Track your mail and parcel activity in real time in one single dashboard
- Create cost centers and reports to track your postage and shipping spend
- Manage multiple users efficiently

The iX6 Series Franking System with S.M.A.R.T. will revolutionise your mail centre operations.
